

The 1st CIRNO Symposium

Center for Immune Research on Non-Lymphoid Organ

| Time | November 06 (Tue), 2018

| Venue | Room 711101 School of Medicine, Sungkyunkwan University, Suwon, Korea

성균관대학교 자연과학캠퍼스 의과대학 대강의실 (711101호)

Program

13:30 – 13:40	Opening address	Yong-Soo Bae (Sungkyunkwan University)
Session 1	Immune responses in disease	Chaired by Cheol-Heui Yun (Seoul National University)
13:40 – 14:10	Immunity and tolerance in cancer	Ming O. Li (Memorial Sloan Kettering Cancer Center)
14:10 – 14:40	Maternal gut bacteria and neurodevelopmental disorder	Jun R. Huh (Harvard Medical School)
14:40 – 15:10	Epigenomic regulation of human macrophages by interferon-gamma	Kyuhoo Kang (Chungbuk National University)
15:10 – 15:40	Personalized cancer immunotherapy based on expression signature of immune checkpoint ligands in tumor microenvironment	Sang-Jun Ha (Yonsei University)
15:40 – 16:00	Coffee break	
Session 2	Immune cell development	Chaired by Yeonseok Jeong (Seoul National University)
16:00 – 16:30	Macrophage and dendritic cell biology :from development to functions	Florent Ginhoux (Singapore Immunology Network(SiGN))
16:30 – 17:00	Role of capicua in liver-resident memory CD8 ⁺ T cell development	Yoontae Lee (POSTECH)
17:00 – 17:30	Identification of a novel arthritis-associated osteoclast precursor macrophages	Masaru Ishii (Osaka University)
17:30 – 17:40	Closing address	Yong-Soo Bae (Sungkyunkwan University)

주관: 비임파성 장기면역 연구센터
후원: 성균관대학교 항균내성치료제 연구소
